Cloud
- Cloud Fundamentals
- Serverless Concepts
- Cloud Deployment

ABOUT ME

Results-driven Laravel Developer with hands-on experience in building and maintaining scalable, high-performance web applications. Strong background in Laravel MVC architecture, RESTful APIs, and database optimization. Experienced in working with third-party integrations, improving application performance, and collaborating in agile development environments. Highly motivated to learn, adapt quickly, and deliver clean, maintainable code.

FULLSTACK DEVELOPER

Batunet Technology

- Developing web applications using Laravel and modern web technologies.
- Implementing RESTful APIs and working with relational databases.
- Contributing to feature development, bug fixing, and performance improvements.
- Following clean code principles and agile development practices.
